

KonnectOS

Soft Router for Intelligent Global Connectivity

Unify, secure, and optimize your entire network fabric — Everywhere.

KonnectOS powers advanced SD-WAN, security, and orchestration across distributed and high-performance environments. Built for enterprises, resellers, and service providers, KonnectOS acts as both an edge router and global hub — enabling intelligent routing, threat protection, and centralized cloud control through Kognitive Cloud.

Performance & Resilience

Global performance, built for demanding environments

- **Multi-WAN Bonding & Failover**
- **MPK-VPN Hub - KonnectHub Mode**
- **Virtual Machine or Hardware Deployment**

Control & Intelligence

Smart automation with visibility and remote access

- **Role Based Access for Multi-Organization**
- **Policy Kontrol™ Suite & Usage Quotas**
- **KonnectRM™ Remote Access**

Security & Trust

Enterprise-grade protection, built into every connection

- **Integrated Firewall, DPI & IPS**
- **Hardened Architecture**
- **Zero Trust & Compliance-Ready**

Scale & Monetization

Connectivity that grows revenue

- **Whitelabel Branding**
- **Orbit™ & BillPort™ Starlink Management**
- **Captive Portal with Paywall Integration**

Orchestrate Every Network, Secure Every Edge
