

Integrated Billing Service - Add On

OrbitBills is a complete invoicing and billing engine built for wireless internet. With a direct link to **OrbitPlans**, it is optimized for complex organizational hierarchies that need to automate billing for both recurring subscriptions and on-demand purchases.

Plan and Pricing Customization

Set organization-specific pricing for any product

- Hardware & Technical Services
- Starlink Standard Plans & Starlink Pooled Data Plans
- Data Blocks, local / global priority upcharges

Centralized, Cloud-Managed Invoicing

Role-based administration/access across hierarchies

- Manage invoices, track payments, issue credits
- Extend admin, user, or read-only rights to individuals at any level of organization
- Allow organizations and end-customers to check invoices, account status, and payment history

Profitability Reports and Analytics

Generate KPIs on Custom Plans, Usage, Profitability

- Revenue and profit reports
- Invoicing summaries
- Plan efficiency and margins

Branded Invoice Generation and Routing

White-Labeled Invoicing Across Organizations

Your brand. Your identity. All of your customers.

- Add custom logo, contact details, and messaging to your invoices - at any level of hierarchy
- Create logins for your customers to: view invoices, check pricing and plan details, edit contact preferences
- Digitally signed PDF invoices for added security

Automated Billing Cycles, Invoice Delivery, and Payments Dashboard

On-demand and recurring invoice delivery with reporting and payment status per organization

- Automatically generate and send invoices periodically, on the 1st of each month
- Roll up multiple site-level invoices into a single sub-org invoice
- Generate and extend access to pending A/R reports and invoicing summaries

Simplify your Starlink billing by integrating fulfillment charges, recurring billing, and one-time purchases into a single platform. Grow revenue and optimize your offering with detailed analytics and KPIs at the organization, site, and individual service level.
